ADVANCED SCULPTING TECHNIQUES USING FACIAL IMPLANTS

Designated 8.0 ACCME credits

ADVANCED SCULPTING TECHNIQUES USING FACIAL IMPLANTS

The Masters Educational Series, Volume VIII

The *Masters Educational Series* presents an in-depth seminar by leading plastic surgeons on the most effective use of alloplastic facial implants. Learn the basics of "fixing the foundation" to achieve the longer-lasting, more youthful look your patients desire.

The experts in the field will provide their extensive experience to help the surgeon understand the latest techniques in performing facial implant procedures and obtaining the best outcomes in facial contouring. The course will include cadaver lab, lecture material, videos and one-on-one interaction with case study review.

Touro University – Nevada

874 American Pacific Drive, Henderson, NV

Cadaver Lab

Touro University Nevada features a world-class facility, complete with surgical instrumentation and presentation technology.

Note: Transportation will be provided to and from the Cadaver Lab at 874 American Pacific Drive, Henderson, NV.

This activity is jointly sponsored by The Professional Image, Inc. and Medical Education Collaborative (MEC). MEC is a non-profit organization that has been certifying quality educational activities since 1988.

Medical Education Collaborative designates this educational activity for a maximum of 8.0 AMA PRA Category 1 Credit(s). Physicians should only claim credit commensurate with the extent of their participation in this activity. In order to receive credit, participants must attend the full CME activity and submit a credit application and evaluation form before leaving. Statements of credit will be mailed within 6-8 weeks following the program.

Friday
MARCH 23RD
2007

Touro University – Las Vegas, NV

7:30 - 8:00 am	Registration and Continental Breakfast	
8:00 - 8:20 am	Welcome, Introduction and Overview of Facial Implants and Biomaterials	W. Binder, MD
8:20 - 9:00 am	Basics of Chin Implants: Technique with Video	W. Binder, MD
9:00 - 9:30 am	Advanced Concepts in Chin Augmentation: Technique with Video	E. Terino, MD
9:30 - 9:50 am	Break	
9:50 - 10:20 am	Mandibular Angle Implants	J. Niamtu, DMD
10:20 - Noon	Cadaver Lab: A. Surgical Techniques in Mandibular Augmentation: Chin, Pre-Jowl, Angle and Total Mandibular Augmentation B. How to Make Custom Mandibular Implants	W. Binder, MD E. Terino, MD J. Niamtu, DMD
Noon - 12:45 pm	Lunch

MASTERS EDUCATIONAL SERIES

WILLIAM J. BINDER, MD, FACS, is board certified by both the American Board of Plastic and Reconstructive Surgery and the American Board of Otolaryngology and Head & Neck Surgery. He is a Fellow of the AAFPRS, Asst. Clinical Professor at UCLA Medical Center and Attending Surgeon at Cedars Sinai Medical Center. Dr. Binder has edited 3 text books, published over 60 articles and chapters in national medical and surgical journals and is a pioneer in the use and developments in facial implants to create the modern field of facial contouring.

EDWARD O. TERINO, MD, is a graduate of Amherst College and Yale University. Dr. Terino is a certified Diplomate of the American Board of Plastic Surgery, a member of the American Society of Plastic Surgery and the American Society of Aesthetic Plastic Surgery. He has served on the teaching staffs of several universities including UCLA, USC and Stanford and is a world renowned pioneer and developer in the field of facial implants and solutions for flat cheeks, small jaw lines and weak facial contours.

JOSEPH NIAMTU, III, DMD, is a fellow of the American Academy of Cosmetic Surgery and the American Society for Lasers in Medicine and Surgery. Board certified by the American Board of Oral and Maxillofacial Surgery, he lectures internationally on cosmetic facial surgery and has written over 150 publications on the subject.

The purpose of this program is to provide an in-depth learning opportunity so physicians can learn the most effective, safe and long lasting techniques to obtain an optimal result. Our target audience is plastic surgeons, facial plastic surgeons, oral/maxillofacial surgeons and aesthetic surgeons of all disciplines. Upon completion of this activity the participant will be able to:

- Demonstrate principles of facial aesthetics.
- Discuss techniques of consultation and implementation of chin, nasal, midface, etc. augmentation to provide consistent and reliably predictable results.
- Identify potential complications and how to effectively avoid and manage them.
- Obtain correct and exact implant placement, as well as determine the right type of implant for each anatomical area.

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for continuing Medical Education through the joint sponsorship of Medical Education Collaborative, Inc. (MEC) and The Professional Image, Inc. MEC is accredited by the ACCME to provide continuing medical education for physicians.
